Initially, make the following points:

1. President is considering two responses to the incident:
  - (a) Option 1 - a military response
  - (b) Option 2 - a diplomatic response combined with repeat reconnaissance missions with fighter escort.
2. This ad hoc interagency group has been convened to initiate complete integrated interagency planning to implement either course of action following Presidential decision.
3. Decision could come at any time, hence actions outlined today are of the highest priority but at the same time, because of their extreme sensitivity they must be held tightly at all echelons.
4. It is contemplated that the group will be convened with augmentation if necessary twice daily until further notice.
